AQUA CLARITY™ Concentrate

Prepared to U.S. OSHA, CMA, ANSI, Canadian WHMIS, Australian WorkSafe, Japanese Industrial Standard JIS Z 7250:2000, and European Union REACH Regulations

SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: AQUA CLARITY™ Concentrate
PRODUCT DESCRIPTION: Aqua Clarity Concentrate is a unique recreational water maintenance program made specifically for Hot Tubs and Swim Spas. The Aqua Clarity program serves a "dual purpose" as it is designed to be a sensational water clarifier and incorporates an engineered molecular structure that aids in keeping non-public health biofilms and slime forming microorganisms from gaining a foothold within the plumbing infrastructure. In addition to this, the Aqua Clarity program is designed to have the "end user" mix the concentrate into their chosen suitable gallon container to make sufficient product to maintain a 400-gallon hot tub for one full year. This also includes enough liquid to purge the hot tub just prior to first use and 6 months into the program. The Aqua Clarity program is designed to provide cost savings and less environmental stress from less weight for shipping, less plastic and using recyclable materials where possible.
